

NevOut Meds

$$= N + \theta$$

Brandmark Breakdown: NevOut Meds Concept 2

1. Symbol Composition

The logo is a stylized “O” formed by overlapping capsule shapes, derived from:

- N: The brand’s initial, anchoring the identity.
- θ (Theta): Symbolizing predictive intelligence and system logic.

This fusion creates a unique, ownable shape that feels both pharmaceutical and algorithmic — ideal for a tech-driven pharmacy solution.

2. Symbolic Meaning

- Capsule Shape: Grounds the brand in the pharmacy space.
- Overlapping Geometry: Represents data integration, supplier comparison, and predictive reordering.
- Circular Form: Implies continuity, protection, and system harmony.

3. Design Style

- Minimal & Modular: Clean lines and geometric logic make it ideal for dashboards, packaging, and app icons.
- Scalable: Works well in monochrome and small sizes.
- Tech-Pharma Hybrid: Balances medical familiarity with digital sophistication.

4. Brand Alignment

This concept supports NevOut Meds’ core value propositions:

- Smart Buying Engine Theta logic
- Stockout Shield Capsule protection
- Savings Ledger Overlapping precision
